

CPG is dedicated to helping our clients with the highest quality power products and solutions from one single, reliable source for Commercial Off The Shelf (COTS) products to custom requirements. CPG is a leading provider of Mission Critical Power Solutions and Energy Efficient Solutions for Greener and Healthier working environments.

Rotary CPS

- No Break Ride Through Systems
- 500-3000 KVA CPS Systems
- Diesel Driven Battery less UPS
- Low and Medium Voltage Applications
- Single/Dual Output for Critical Loads
- Ride Through M-G Sets (AC Flywheel)

Static UPS

- 250VA-40 kVA1Ø UPS (Tower & Rack)
- 10-125 kVA 3Ø UPS (Parallelable)
- 225-500 kVA 3Ø UPS (Parallelable)
- UL 924 Lighting Inverter
- Wireless Battery Monitoring
- Voltage Regulators
- Power Factor Correction Solutions

DC Flywheel

- 190 & 300 KW DC Output for UPS
- Smallest Footprint on the Market
- 20 Year Design Life
- Easy to Install
- Environmentally Friendly
- Battery Free UPS

Transformers

- Energy efficient/Harmonic Cancellation (ePact2005, TP1 & 2 Compliant)
- Mitigation Transformers for new construction and reme-dial applications
- Power Distribution Units (30-750 kVA)
- Cyberhawk monitoring platform & Validation

Scalable, Modular Mission Critical Facilities

- Applications: Data Centers, NOCS, NODES, SCIF's, Conex
- Modular, recyclable, & green
- This rapid, secure assembly prevents fire, ballistics, water, & intrusion

Static Transfer Switch & PDU

- Cyberex STS for 480 & 208 volt applications (2&3 source STS's)
- PDM's, RPP's, & UL listed cables
- Branch Circuit Monitoring
- Industrial Grade UPS

- Selenium Enhanced TVSS/ Filter
- Service Entrance, Distribution panels & Sub-panel Protection (Category A, B & C)
- Systems available up to 300 kA
- UL 1449 3RD Edition Compliant Meeting 9/29/09 Directives
- 20 Year Unconditional Warranty

DC Power

- Rectifiers & Inverters
- DC generator & distribution
- DC driven air conditioner (optional)

Battery Monitoring Solutions

- Cellwatch: Modular, Scalable
- Monitors Ohmic Value of all jars daily
- Suitable for different jar voltages on the same system (UPS, DC Plant)

Server Racks

- Precision Cooling for High Density Areas
- Racks for I.T. & Datacenter Applications

Filtered Power

- Red and Black Military Filtered Power Products
- Protection for SIPR, NIPR, & RIPR areas

Additional Professional Services

- Static & Rotary Frequency Converters
- Generator & Load Bank Rental
- Power quality audits and monitoring
- Spare parts & maintenance contracts
- Facility-wide maintenance & monitoring
- Water Detection Solutions
- Battery Replacement (dry & wet)
- Battery spill containment products
- 1 & 3 Phase UPS system Rental
- Env. Monitoring Systems/Cust Alarm Panels
- Voltage Regulators/Power Conditioners
- DC Power Systems & Distribution
- Generator Sets (Commercial & Residential)
- Specialty ruggedized single phase UPS
- Programmable memory chip for UL Cables
- EFI Services
